Financial Overview

What We Do

Steppe and Hoof is a registered non-profit organization (NGO) based in Mongolia. Our aim is to help and support the herders in Mongolia so that the last pastoral nomads with beautiful traditions and culture can survive in this changing world. This is achieved by providing health and veterinary support programs.

Our work has remained focused on the herders and we continue to work for them. Last year we delivered veterinary services and First Aid kits to forty herders in the countryside.

Many herders migrated from the countryside to urban areas and as of 2020 the capital city population has tripled from 1990 levels, with about 60 percent of these former herders living in ger districts without access to running water or simple necessities. Most of these people end up in a far worst situation in the city than they would face in rural Mongolia.

Our Achievements

This year we achieved a significant milestone as we became a recognized partner of Globalgiving, which is an online fundraising platform - this will significantly help to increase the scope and impact of donations. We also became an official charity organization for the Mongol Derby, which runs the world's longest horse race.

We continue to consolidate our work on helping herders by ensuring more herders receive basic veterinary treatment skills. We have received overwhelmingly positive feedback from herders, which motivates us to continue and expand our programs.

Projects - Health

With the support of donations we have continued to provide First Aid Kits to herders.

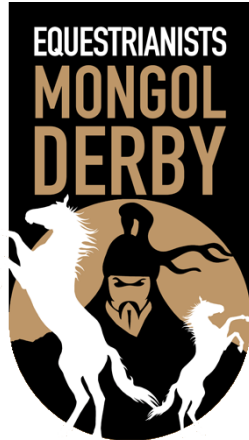

Treating minor injuries so that they do not become more serious increases the importance of the kits. This is especially true when basic healthcare such as doctors and hospitals are hundreds of miles away over dirt roads.

Project - Veterinary Support

As a result of Globalgiving's fundraising efforts we were able to organize a veterinary education program for foot and mouth disease and provided much needed supplies for herding families in Tov province. Our veterinarian taught herders how to clean wounds and do treatment using medical supplies that we provided to them.

We were able to supply the herders with antiseptic solution, antibacterial disinfectant, antibacterial injections and cleaning supplies.

Our Supporters and Partners

In 2021 we had the pleasure of working with and being supported by a wide range of exceptional individuals, organizations and businesses such as The Equestrianists and the Mongol Derby riders. We would like to say a huge “Thank You!” all of them for their amazing and unwavering support.

Our thanks also extends to those who continue to support and donate to Steppe and Hoof. This is the bedrock of our organization and we are grateful to our supporters - our work would not be possible without you!

Finally we wish to thank our amazing team of veterinarians and board members.

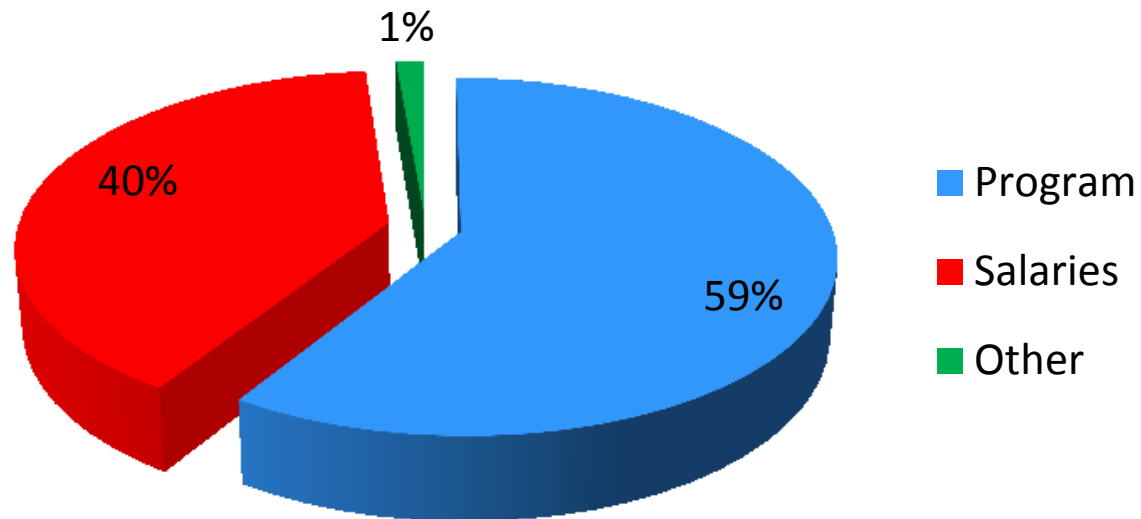

Thank You!

Financial Overview

Shown below is a summary overview and breakdown of our finances for 2021.

Cost type	Amount	Percentage
Program	4,821,646₹	59%
Salaries	3,235,501₹	40%
Other	111,270₹	1%
Total	8,168,417₹	100%
